Xyloglock

Music Teaching Aid

Magnetic - Tuned Percussion Board

An absolute must for every music teacher

PURPOSE

- Suitable for teaching students of all ages.
- Great to model many different techniques for playing tuned percussion instruments, glockenspiels, metallophones, xylophones, and marimbas.
- Perfect to demonstrate correct removal and replacement of bars.
- Students can easily see and understand how the "Xyloglock" represents their tuned instruments and so learn skills and playing techniques very quickly.
- Students can see what bars to play and can easily transfer this onto their own tuned instruments. Therefore children learn to play musical pieces quickly, easily and stress free.

FEATURES

- The "Xyloglock" is a sturdy free standing, metal board, with magnetic rubber, removable bars.
- Music Teachers can easily demonstrate skills and techniques for playing tuned percussion instruments.
- The "Xyloglock" is very practical, quick and easy to set up and pack away.
- There are 15 magnetic bars, displaying 2 octaves from C, to C'.
- The bars are large and clearly visible for all students to see.
- All bars are easy to remove and replace.
- F sharps and B flats are included.
- Magnetic bars can be secured on the back of the board when not in use, so never lost!
- Teachers can use ordinary mallets to demonstrate playing techniques and skills.
